SUBJECT INDEX

Erosion and sedimentation

A. Yair, D. Sharon & H. Lavee: Trends in runoff and erosion processes over an arid limestone hillside, northern Negev, Israel. No. 3, 243–255.

Evaporation

B. Seguin: Détermination de l'évaporation réelle dans les bilans hydrologiques par la télédétection en thermographie infra-rouge. No. 2, 143–153.

B. G. Wales-Smith: Estimates of net radiation for evaporation calculations. No. 3, 237–242.

K. Gilman: Estimating the soil heat flux in an upland drainage basin. No. 4, 435–451.

General or miscellaneous

M. North: La simulation des processus hydrologiques intermittents par des modèles alternés inhomogènes. No. 1, 5–12.

E. A. Simpson: The harmonization of the monitoring of the quality of rivers in the United Kingdom. No. 1, 13–23.

M. I. Lvovich: Soil trend in hydrology. No. 1, 33–45.

M. F. Meier: Remote sensing of snow and ice. No. 3, 307–330.

H. Önsoy & C. Bocquillon: Interpolation de variables régionales et cartographie automatique: modèle triangulaire hydrologique (MTH). No. 3, 297–306.

J. R. Gat: The relationship between surface and subsurface waters: water quality aspects in areas of low precipitation. No. 3, 257–267.

K. Moore: Satellite remote sensing of water turbidity. No. 4, 407–421.

R. Srikanthan & T. A. McMahon: Stochastic time series modelling of arid zone streamflow. No. 4, 423–434.

Geographic region

Africa

T. H. E. Heaton & J. C. Vogel: Rate of oxygen removal in some South African groundwaters. No. 4, 373–377.

Atlantic Ocean

Y. Gilboa: The aquifer systems of the Dominican Republic. No. 4, 379–393.

Asia

H. Ngoc Phien, A. Arbhabhirama & A. Sunchindah: Rainfall distribution in northeastern Thailand. No. 2, 167–182.

P. S. Datta, S. K. Gupta, A. Jayasurya, V. N. Nisampurkar, P. Sharma & M. I. Plusnin: A survey of helium in groundwater in parts of Sabarmati basin in Gujarat state and in the Jaisalmer district, Rajasthan. No. 2, 183–193.

L. Shanan & A. P. Schick: A hydrological model for the Negev desert highlands: effects of infiltration, runoff and ancient agriculture. No. 3, 269–282.

A. Yair, D. Sharon & H. Lavee: Trends in runoff and erosion processes over an arid limestone hillside, northern Negev, Israel. No. 3, 243–255.

G. Al-Mashidani, P. B. B. Lal & I. Qadri: Drought flow analysis of the River Tigris at Baghdad. No. 4, 453–459.

Europe

E. A. Waring & J. A. A. Jones: A snowmelt and water equivalent gauge for British conditions. No. 2, 129–134.

R. Kitching, W. H. Edmunds, T. R. Shearer, N. R. G. Walton & J. Jacovides: Assessment of recharge to aquifers. No. 3, 217–235.

Groundwater

E. G. Youngs: The analysis of groundwater seepage in heterogeneous aquifers. No. 2, 155–165.

P. S. Datta, S. K. Gupta, A. Jayasurya, V. N. Nijamparkar, P. Sharma & M. I. Plusnin: A survey of helium in groundwater in parts of Sabarmati basin in Gujarat state and in Jaisalmer district, Rajasthan. No. 2. 183–193.

R. Kitching, W. M. Edmunds, T. R. Shearer, N. R. G. Walton & J. Jacovides: Assessment of recharge to aquifers. No. 3, 217–235.

T. H. E. Heaton & J. C. Vogel: Rate of oxygen removal in some South African groundwaters. No. 4, 373–377.

Y. Gilboa: The aquifer systems of the Dominican Republic. No. 4, 379–393.

K. R. Rushton & K. S. Rathod: Flow in aquifers when the permeability varies with depth. No. 4, 395–406.

Instruments and techniques

M. North: La simulation des processus hydrologiques intermittents par des modèles alternés inhomogènes. No. 1, 5–12.

E. M. Morris: The propagation of waves in shallow water flow with lateral inflow. No. 1, 25–32.

E. L. Peck, T. R. Carroll & S. C. Vandemark: Operational aerial snow surveying in the United States. No. 1, 51–62.

R. Kuittinen & J. Vironmäki: Aircraft gamma-ray spectrometry in snow water equivalent measurement. No. 1, 63–75.

G. O. Endrestøl: Principle and method for measurement of snow water equivalent by detection of natural gamma radiation. No. 1, 77–83.

M. V. Nikiforov, N. N. Pegoev & A. N. Stroganov: Aerial gamma survey of snow cover and soil moisture. No. 1, 85–91.

R. N. Cherry, B. W. Lium, W. T. Shoaf, J. K. Stamer & R. E. Faye: Effects of nutrients on algal growth in West Point Lake, Georgia. No. 2, 117–128.

E. A. Waring & J. A. A. Jones: A snowmelt and water equivalent gauge for British conditions. No. 2, 129–134.

Z. Sen: The numerical calculation of extreme wet and dry periods in hydrological time series. No. 2, 135–142.

B. Seguin: Détermination de l'évaporation réelle dans les bilans hydrologiques par la télédétection en thermographie infra-rouge. No. 2, 143–153.

E. G. Youngs: The analysis of groundwater seepage in heterogeneous aquifers. No. 2, 155–165.

H. Ngoc Phien, A. Arbhabhirama & A. Sunchindah: Rainfall distribution in northeastern Thailand. No. 2, 167–182.

M. E. Moss & D. R. Dawdy: Supply and demand and the design of surface water supplies. No. 3, 283–295.

M. F. Meier: Remote sensing of snow and ice. No. 3, 307–330.

H. Önsoy & C. Bocquillon: Interpolation de variables régionales et cartographie automatique: modèle triangulaire hydrologique (MTH). No. 3, 297–306.

B. G. Wales-Smith: Estimates of net radiation for evaporation calculations No. 3, 237–242.

L. Shanan & A. P. Schick: A hydrological model for the Negev desert highlands: effects of infiltration, runoff and ancient agriculture. No. 3, 269–282.

R. Kitching, W. M. Edmunds, T. R. Shearer, N. R. G. Walton & J. Jacovides: Assessment of recharge to aquifers. No. 3, 217–235.

T. H. E. Heaton & J. C. Vogel: Rate of oxygen removal in some South African groundwaters. No. 4, 373–377.

K. R. Rushton & K. S. Rathod: Flow in aquifers when the permeability varies with depth. No. 4, 395–406.

K. Moore: Satellite remote sensing of water turbidity. No. 4, 407–421.

R. Srikanthan & T. A. McMahon: Stochastic time series modelling of arid zone streamflows. No. 4, 423–434.

K. Gilman: Estimating the soil heat flux in an upland drainage basin. No. 4, 435–451.

G. Al-Mashidani, P. B. B. Lal & I. Qadri: Drought flow analysis of the River Tigris at Baghdad. No. 4, 453–459.

Limnology
R. N. Cherry, R. W. Lium, W. T. Shoaf, J. K. Stamer & R. E. Faye: Effects of nutrients on algal growth in West Point Lake, Georgia. No. 2, 117–128.

Precipitation
E. L. Peck, T. R. Carroll & S. C. Vandemark: Operational aerial snow surveying in the United States. No. 1, 51–62.
R. Kuittinen & J. Vironmäki: Aircraft gamma-ray spectrometry in snow water equivalent measurement. No. 1, 63–75.
G. O. Endrestøl: Principle and method for measurement of snow water equivalent by detection of natural gamma radiation. No. 1, 77–83.
M. V. Nikiforov, N. N. Pegoev & A. N. Stroganov: Aerial gamma survey of snow cover and soil moisture. No. 1, 85–91.
E. A. Waring & J. A. A. Jones: A snowmelt and water equivalent gauge for British conditions. No. 2, 129–134.
Z. Sen: The numerical calculation of extreme wet and dry periods in hydrological time series. No. 2, 135–142.
H. Ngoc Phien, A. Arbhabhirama & A. Sunchindah: Rainfall distribution in northeastern Thailand. No. 2, 167–182.

Runoff and streamflow
E. M. Morris: The propagation of waves in shallow water flow with lateral inflow. No. 1, 25–32.
M. E. Moss & D. R. Dawdy: Supply and demand and the design of surface water supplies. No. 3, 283–295.
J. R. Gat: The relationship between surface and subsurface waters: water quality aspects in areas of low precipitation. No. 3, 257–267.
L. Shanan & A. P. Schick: A hydrological model for the Negev desert highlands: effects of infiltration, runoff and ancient agriculture. No. 3, 269–282.
A. Yair, D. Sharon & H. Lavee: Trends in runoff and erosion processes over an arid limestone hillside, Northern Negev, Israel. No. 3, 243–255.
R. Srikanthan & T. A. McMahon: Stochastic time series modelling of arid zone streamflows. No. 4, 423–434.
G. Al-Mashidani, P. B. B. Lal & I. Qadri: Drought flow analysis of the River Tigris at Baghdad. No. 4, 453–459.

Snow and Ice
M. F. Meier: Remote sensing of snow and ice. No. 3, 307–330.

Soil moisture
M. I. Lvovich: Soil trend in hydrology. No. 1, 33–45.
M. V. Nikiforov, N. N. Pegoev & A. N. Stroganov: Aerial gamma survey of snow cover and soil moisture. No. 1, 85–91.
L. Shanan & A. P. Schick: A hydrological model for the Negev desert highlands: effects of infiltration, runoff and ancient agriculture. No. 3, 269–282.

Water quality
E. A. Simpson: The harmonization of the monitoring of the quality of rivers in the United Kingdom. No. 1, 12–23.
R. N. Cherry, B. W. Lium, W. T. Shoaf, J. K. Stamer & R. E. Faye: Effects of nutrients on algal growth in West Point Lake, Georgia. No. 2, 117–128.
P. S. Datta, S. K. Gupta, A. Jayasurya, V. N. Nijampurkah, P. Sharma & M. I. Plusnin: A survey of helium in groundwater in parts of Sabarmati basin in Gujarat state and in the Jaisalmer district, Rajasthan. No. 2, 183–193.
J. R. Gat: The relationship between surface and subsurface waters: water quality aspects in areas of low precipitation. No. 3, 257–267.
K. Moore: Satellite remote sensing of water turbidity. No. 4, 407–421.
